Acrylic Smooth Sheet

Acrylic (PMMA) Sheet is manufactured from virgin polymer and is extruded with no pattern on either side. The standard sheets are available in 3mm thickness (other thicknesses to order) in either glass (clear) or opal. Due to the excellent performance of Acrylic in standard lighting, these sheets have numerous applications and will last for many years before changing appearance or going brittle.

Acrylic is not affected by UV light this material is ideally suited for use with high output fluorescent lamps. Acrylic sheet is usually available from stock and can be supplied in standard sheet sizes or cut to customers individual specifications.

	Smooth Sheet
Material	Acrylic PMMA
Pattern	Smooth
Thickness	3mm
Tolerance on Thickness	10%
Weight per M2	3.5 kg
UV Stability	Good
Impact Resistance	Medium
Vicat Temperature	98 C
Max Operating Temp.	70 C
Colours Available	Clear Opal (Special Order)
Non Standard Size	Cut from Sheet
Tolerance on Cutting	+1 / - 2
