Opal Frost Polycarbonate

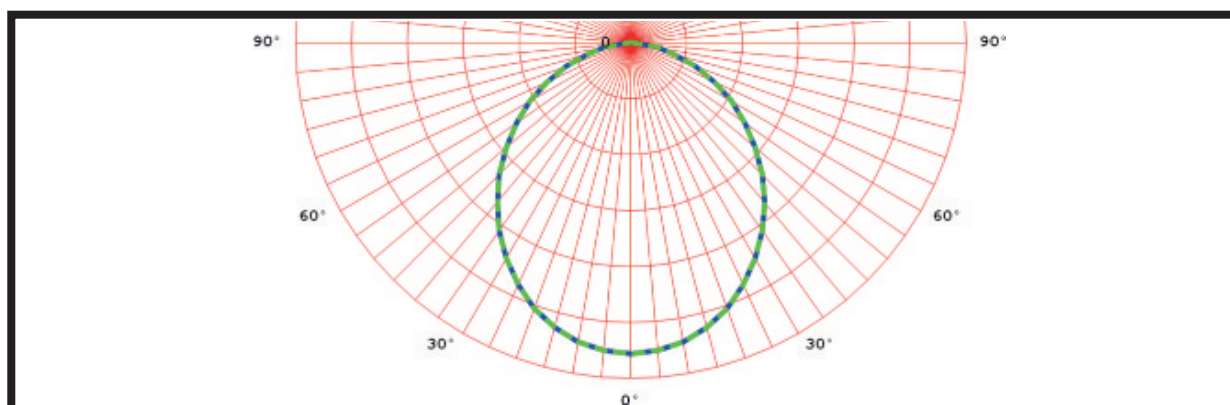

SLP (UK) LTD Opal Frost Polycarbonate is one of the latest opal smooth sheet diffusers in our range of LED solutions. Designed specifically for LED fittings the opal Polycarbonate is a versatile LED diffuser providing good LED 'spot' diffusion, reduced glare, excellent light transmission of 80% for 2 mm, and 70% for 3 mm.

The material has an anti-reflective matt surface on one side to prevent unwanted reflection. Opal Frost Polycarbonate 3mm is TP(a) classed fire rated, which makes the panels self extinguishing . Opal Frost

Polycarbonate is an extruded product in 2mm and 3mm thickness, that can be supplied in standard sheet format or cut to your individual requirements. As with all SLP (UK) LTD products Opal Frost Polycarbonate is available from stock for rapid processing and delivery.

For more information please visit our website or call our in house team to answer any questions you may have.
