# Triumph Lens

Round Light

Triumph Light

The Triumph range of precision injection moulded lenses have been designed with four distinct high transmission prismatic sections. Each section diffuses light into the desired zones for maximum efficiency and gives a “square” light distribution (see above). The Triumph range consists of 2 sizes of panels. The Senior (565 mm square) and the Junior (305 mm square). Both sizes are available in either acrylic (PMMA) or Polycarbonate for high impact and fire resistance properties.

Triumph Lenses are made for use with Metal Halide or High Pressure Sodium lamps. The Triumph panels are robustly made and are ideally suited for use in car parks, canopies or outdoor applications. They are also suitable for most areas of high humidity. Triumph Lenses are sold only in full boxes.

	Sirio High Bay
Material	UV Acrylic (PMMA) UV Polycarbonate
Pattern	4 Prismatic Sections
Moulded Lens Size	Senior 565 x 565 mm Junior 305 x 305 mm
UV Stability	Acrylic - Excellent Polycarbonate - Good
Impact Resistance	Acrylic - Good Polycarbonate - Excellent
Vicat Temperature	Acrylic - 98 C Polycarbonate - 143 C
Max Operating Temp.	Acrylic - 79 C Polycarbonate - 100 C
Colours Available	Clear

Special Lenses
